

## Vector Planning & Services, Inc.

**Subject ID:** User Support & SPS Adapter Interface Integration Specialist

**Location:** Washington, D.C.

**Position Description:**

- Provide PD2 product consulting services and expertise to answer users' functional and technical questions related to the use of the PD2 product and processes. The service must be provided in a manner consistent with SPS implementation plans and procedures.
- Provide assistance with issues considered "out-of-scope" for the Navy's SPS Technical Helpdesk/SYSADMIN Support.
- Act as the central repository for SPS usage issues, both technical and functional and shall work closely with: the SPS Data/Network Center, other system support contractors, and or other designated hosting facilities as required.
- Installs and upgrades PD2 components including database, adapter and ASF
- PD2 Integration and Interface with external systems to include EDA, WAWF, FPDG-NG, etc.
- Troubleshoot integration issues and resolve data flow problems

**Required experience:**

- Demonstrated direct use of SPS-PD2 for contract formation and administration.
- SPS-PD2 User Support experience is a definite plus.
- Ability to work with customers through effective written and oral communication.
- B.S. degree strongly preferred, but not required.

**Security Requirements:** Ability to secure/maintain a SECRET level DoD clearance

**Submission Requirements:** All resumes should be submitted to: [Recruiter@myvpsi.com](mailto:Recruiter@myvpsi.com)

**Vector Planning and Services, Inc. is an EEO/AA Employer.**
