Brief Description of Capabilities - BearingPoint provides business consulting, systems integration and managed services to Global 2000 companies, medium-sized businesses, and government organizations. Our approximately 16,000 professionals in 39 countries leverage extensive industry and technology domain experience and flexible tools and methodologies to successfully deliver on time and on budget. The name BearingPoint means setting direction to achieve results. As business systems integrators, we align our clients' business processes and information systems to enable them to access the right information at the right time, empowering them to achieve their desired business results and create enterprise value.
