Brief Description of Capabilities - Engineering Support, System Design Doc/ tech data, HF Engineering Support, CM Support, IS / IA/ IT, Acquisition Logistics, Program Support, and Administrative Support.

Tasking: DCS has substantial experience in the NMCI arena; our experience includes current senior level engineering, project management, transition and legacy capabilities, and analytic support to the PEO C4ISR and Space and the NMCI PMO. DCS also has a presence in PMW 160 in the ADNS program supporting the Trident Warrior effort. We also have several people supporting PMW 170 in the navigation discipline including NAVSSI, GPS, and NAVWAR. We have interest in supporting PMW 750 in the programmatic and finance disciplines. We have a substantial presence in China Lake, about 90 FTEs tasked in all the functional areas identified below; and have substantial tasking in several NAVAIR codes / Pax River; additional tasking in Huntsville with the MDA and USA.

Functional Areas: Program Management, Systems Engineering, Financial Management, Configuration Mgmt/ ILS, Training demonstrated in Programs such as NAVWAR, NAVSSI, GPS, NMCI, ADNS.
