Brief Description of Capabilities - MAXIM Systems, Inc. is a recognized leader in system engineering and program management supporting both DoD and commercial customers. MAXIM designs, develops, integrates, installs, tests and supports C4ISR systems for the military in locations worldwide. The company provides unmatched expertise in the fields of satellite communications, multilevel secure systems, project control, and training. MAXIM's corporate structure is divided into five core groups: Space and Communications Systems, Knowledge Management, Command and Control, Trusted Systems, and Intelligence. Founded in 1998, MAXIM Systems is a veteran and employee owned business. MAXIM has facilities and resources in San Diego, CA, Ft. Mugu, CA, Washington, D.C., Austin, TX, Colorado Springs, CO, Tampa, FL, Damneck, VA, Honolulu, HI and the Republic of Korea. The company has two Sensitive Compartmented Information Facilities (SCIFs) in-house with more than 60 active billets. The company is ISO-9001 certified and is also currently progressing towards Software Engineering Institute Capability Maturity Model Integration (SEI CMMI) level 3 compliance.
